"Your Leader in Backyard Vacation Fun"

Bi-Weekly POOL MAINTENANCE

PristineBlue Pools

1. Backwash Sand Filter
2. Clean out debris in skimmer basket
3. Check pump basket for debris
4. Test Chlorine, pH and Alkalinity and adjust chlorine, pH and Alkalinity, as needed
pH 7.2-7.6 Total Alkalinity 70-90ppm
5. Test PristineBlue (copper) level and top off according to the Pool Top Off Chart.
6. Shock with _____ lbs BioGuard Easy Shock & Swim
(1 lb/10,000 gal)
(This should be done at night for maximum performance)
Wait 15 minutes before swimming.
7. Add _____ oz. **PristineClean** (2 oz./10,000 gal)
8. Add _____ oz. **PristineClear** (2 oz./10,000 gal)
9. Clean waterline with **Off the Wall** as needed
10. Brush bottom and walls of pool
11. Vacuum or run Automatic Cleaner as needed

DO NOT ADD PristineBlue MORE OFTEN THAN EVERY TWO WEEKS. You risk overdosing and staining the pool.
