

Biography:

JOHANNA TEJADA

SENIOR ASSOCIATE

Johanna Tejada joined GlassRatner in August 2019 as a Senior Associate in the Arlington/DC office where she will be working on complex assignments requiring econometric analyses.

Ms. Tejada specializes in quantitative and economic analyses of large complex data sets in connection with litigation issues and damages, among other purposes. Before joining GlassRatner, Ms. Tejada worked for economic and analytics consulting firms that worked with government and commercial clients around the globe on matters ranging from regulatory issues to assessing and evaluating business disputes and damages. Ms. Tejada is proficient in quantitative methodologies and programming languages for statistical and econometric analyses. Her expertise includes proficiency in various programming tools including STATA, SAS, Ruby on Rails, and R; she is also fluent in Bloomberg tools and VBA applications.

Ms. Tejada graduated from Duke University with a degree in Master in Economics. While at Duke, Ms. Tejada successfully completed PhD level coursework at the Economics Department as well as MBA level coursework at Fuqua School of Business.
