

DANIEL KORCZYK - CPA, CFF, ASA, ABV

SENIOR MANAGING DIRECTOR

[vCard](#)

Daniel Korczyk is a litigation expert specializing in intellectual property and technology-oriented companies. His background and experience is particularly suited to damages estimates and valuation matters. Dan's experience with exceedingly complex and high profile assignments, includes:

- Leading a team of 50 professionals in connection with the multi-year forensic investigation that resulted in WorldCom's \$80 billion asset write down.
- Performing damages analysis on behalf of Plaintiffs in connection with the Home Depot retail data breach of more than 109 million records, resulting in a negotiated settlement.
- Testifying on behalf of BellSouth Corporation related to a shareholder dispute leading to a negotiated settlement.
- Testifying on behalf of a telecommunications company in material misrepresentation matter.
- Assessing damages in connection with a breach of contract in a software dispute.
- Quantifying lease pricing recommendations for more than 6,000 cell towers on behalf of Sprint Corporation, resulting in successful monetization of the company's wireless infrastructure.
- Performing competitive assessment research and analysis on behalf of GE Energy.
- Leading the valuation consulting related to monetization of a government-owned fiber optic network with an addressable market in excess of \$4 billion.
- Providing damages consulting services to a multi-billion dollar manufacturing company related to infringement of a portion of their IP portfolio.
- Valuing a minority interest in a closely-held software business in connection with a shareholder dispute.
- Assisting a large FinTech client in metro Atlanta with a capital raise.
- Providing financial planning services for an early stage mobile apps business.
- Providing solvency opinion and litigation support in connection with a claimed fraudulent conveyance by a European wireless operator.
- Spending two years in Brussels, Belgium directing the efforts connected to a carrier's bidding on a government license to become the second nationwide cellular operator.

For more than 25 years Dan has provided expert testimony, damages and valuation analysis and consulting related to matters of fraud, material misrepresentation, intellectual property damages, licensing, insolvency, shareholder dispute, property tax appeals, contract disputes, mergers & acquisitions, professional malpractice and breach of fiduciary duty.
