

SEARCH & RESCUE

Guardian Centers is an 830-acre training complex, purpose-built to support the sophisticated requirements of today's specialized disaster response technicians and operational command groups.

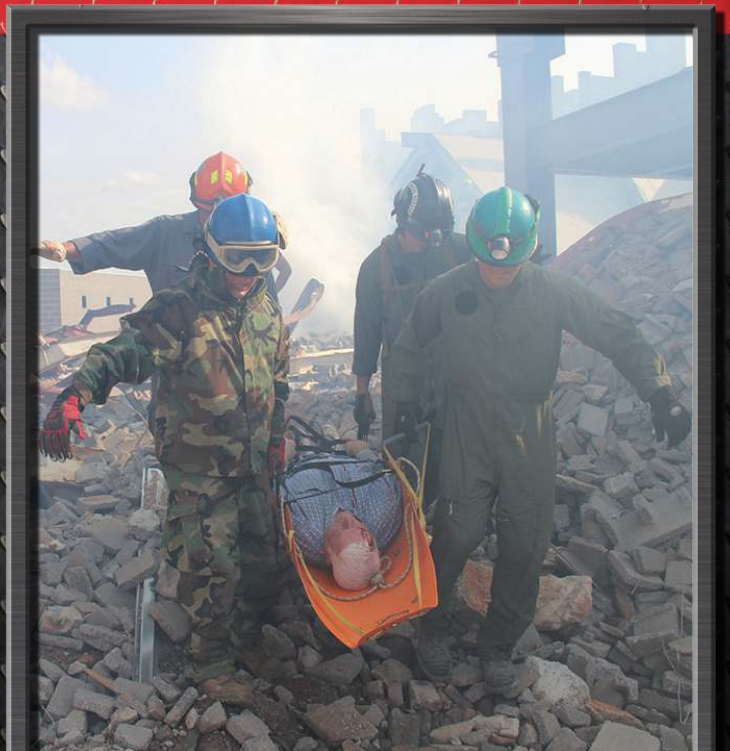

Our training complex offers the size and scale needed to fully test the limits of individual and organizational search & rescue capabilities at all levels of complexity. More important, we have the flexibility to focus on unit-specific training objectives; and the capacity to execute expansive joint-operational, cross-functional exercises on a large scale – all with unmatched realism.

At Guardian Centers, training results are tangible. The outcome is improved real-world proficiency with enhanced operational precision.

UNIQUE CAPABILITIES IN:

- ▶ Wilderness and Metropolitan Wide Area Search
- ▶ Technical Rescue Operations, including Structural Collapse, Confined Space, Trench, Vehicle Extrication, High-angle, and Heavy Machinery
- ▶ Flood and Dive Operations
- ▶ Leadership and Staff Training in Planning, Command & Control, Logistics, and Recovery

SEARCH & RESCUE

GUARDIAN CENTERS TRAINING COMPLEX

PERRY, GA

- 1** 60 single- and multi-story, multi-composition buildings for metropolitan wide area search operations
- 2** Concrete and Steel Collapsed Structures that feature multi-angle breaching points, live role player rescue tunnels, dynamic flooring, and special effects including water, smoke, fire, and electric spark
- 3** 2-block residential neighborhood flood zone, featuring up to 8-foot high flooding capacity and eight furnished homes with live role player rescue space
- 4** 1600-foot dual-track subway tunnel with 8 moveable commuter train cars, water and smoke effects, and full passenger platform
- 5** 1.1-mile, 4-lane, DOT-spec interstate highway for emergency vehicle operations and multi-modal scenarios
- 6** 12.5 million gallon dive pond up to 12 feet deep with submerged search and rescue props
- 7** 500+ acres of woodland and agricultural land for wilderness search operations
- 8** 3-story fully functional emergency operations center with 360-degree observation of the entire city-scape, and an FAA-certified roof-top helipad

REAL TRAINING FOR REAL-WORLD OPERATIONS.
