

LAW ENFORCEMENT SPECIAL OPERATIONS

Guardian Centers is an 830-acre training complex, purpose-built to support the sophisticated requirements of today's special operations officers and operational command groups.

Our training complex offers the size and scale needed to fully test the limits of tactical operator and specialized technician capabilities, both individually and organizationally, at all levels of complexity. More important, we have the flexibility to focus on unit-specific training objectives; and the capacity to execute expansive joint-operational, cross-functional exercises on a large scale – all with unmatched realism.

At Guardian Centers, training results are tangible. The outcome is improved real-world proficiency with enhanced operational precision.

UNIQUE CAPABILITIES IN:

- ▶ Full mission profile training
- ▶ Mechanical and explosive breaching, and deliberate and dynamic entry tactics
- ▶ Clandestine laboratory operations
- ▶ Counter-sniper, counter-assault, and hostage rescue operations
- ▶ Hazardous devices and explosive disposal operations
- ▶ Kinetic operations including explosives, simunitions, and live-fire operations
