

CBRNE/HAZMAT

Guardian Centers is an 830-acre training complex, purpose-built to support the sophisticated requirements of today's specialized disaster response technicians and operational command groups.

Our training complex offers the size and scale needed to fully test the limits of individual and organizational CBRNE and HazMat capabilities at all levels of complexity. More important, we have the flexibility to focus on unit-specific training objectives; and the capacity to execute expansive joint-operational, cross-functional exercises on a large scale – all with unmatched realism.

At Guardian Centers, training results are tangible. The outcome is improved real-world proficiency with enhanced operational precision.

UNIQUE CAPABILITIES IN:

- ▶ Identification, decontamination, and quarantine operations
- ▶ Radiological isotope reconnaissance and survey
- ▶ Toxic industrial chemicals and materials (TIC/TIM)
- ▶ Search and rescue operations in contaminated environments
- ▶ Low/high flow O2 operating environments

CBRNE/HAZMAT

GUARDIAN CENTERS TRAINING COMPLEX

PERRY, GA

- 1** 60 single- and multi-story, multi-composition buildings used for search and rescue operations in contaminated environments
- 2** 350-acre secure cityscape for conducting open-air HazMat, WMD, and RDD exercises
- 3** 2-block residential neighborhood flood zone, and a 12.5M gallon containment reservoir for conducting water sampling in a contaminated flood environment
- 4** 1.1-mile, 4-lane, DOT-spec interstate highway for multi-modal HazMat response training
- 5** 1600-foot dual-track train tunnel with 8 moveable commuter train cars, special effects, and passenger platform for rescue operations in enclosed contaminated environments
- 6** Sealed structures for working clandestine laboratories and simulated biological agents, with real-time particulate counting capability
- 7** Over 11 acres of gravel and black-top area for staging, emergent care, and decontamination operations
- 8** Furnished mobile home park for working tactical and direct action operations on clandestine labs
- 9** 3-story fully functional emergency operations center with 360-degree observation of the entire city-scape, and an FAA-certified roof-top helipad

REAL TRAINING FOR REAL-WORLD OPERATIONS.
